Reduce Falls ♥ Reduce Infections ♥ Reduce Costs

PSC® PERSONAL SAFETY CORPORATION
Exceeding Expectations Since 1991

www.SecureSafetySolutions.com
Toll-Free 800.373.2873

Dick Olson
Founder & President
800.373.2873 x250
dickolson@psc.nu

PSC is devoted to being your Patient-Centered, Solutions-Based, Cost-Effective partner for ALL your falls management & patient safety needs. We challenge ourselves daily to be your #1 falls management & patient safety products supplier. Our vision is to listen, learn & lead the industry in developing the highest quality products at the lowest manufacturer direct prices. When you partner with PSC you can count on being treated as our #1 customer by our entire team. **We Are Here To Exceed Your Expectations!**

Reduce Falls…Reduce Costs… Reduce Infections!

We pride ourselves on focusing our complete attention on exceeding the expectations of our valued customers with the industry's most complete line of high quality falls management products. Your needs are our mission. Our products have assisted in reducing falls, infections & costs in over 7000 nursing homes and hospitals in the U.S., Canada & Europe.

As a result of listening to our customer's need for reducing infections in their facilities, we are pleased to introduce the industry's first antimicrobial bed and chair monitoring pads. Our new antimicrobial monitoring pads have been tested to reduce infections caused by escherichia coli and staphylococcus aurous activity. Our monitoring pads have also been tested to reduce skin irritation and resulting bed sores. Test results can be printed from our web site.

Improve Staff Education And Communication!

In addition to providing exceptional products, above and beyond customer service and everyday low prices we continue to offer educational support to communicate falls management solutions to your staff.

We Are Committed To Our Community And The Customers We Serve!

Personal Safety Corporation is committed to providing the safest and highest quality products for your patients and residents. We are also committed to serving our community with the same deep rooted devotion to service that is the foundation of our Iowa based company.

Sincerely,

Dick Olson
Founder & President

You Will Always Be Treated As Our #1 Customer!

Every
20 minutes
an older adult dies from a fall in the United States. Many more are injured.

Take a stand to prevent falls

STEADI Stopping Elderly Accidents, Deaths & Injuries

CDC

Falls among residents of skilled nursing facilities are the leading cause of injury, hospital admissions and lawsuits for nursing home operators. The Centers For Disease Control & Prevention (CDC) reports that documented falls in LTC are 100-200 per year per 100 beds and average facility cost per fall may exceed $17,000. Note the CDC also states the average hospital cost for a fall injury is $35,000.

For over 25 years Personal Safety Corporation has provided the highest quality falls management products at the lowest factory direct prices to assist caregivers in reducing falls and injuries and nursing home operators in reducing the cost of managing falls and injuries.

NEW WIRE•LESS® Patient Monitoring System

One Year Warranty **U.S. Patent No. 9,466204B2**

The new patented **Secure® Wire•Less® Patient Monitoring System** takes falls management monitors to the next level by eliminating tripping hazards, removing the fall monitor sound from the patient room, and employing the most advanced, continuous 2.4G patented bi-directional wireless communication which minimizes interference within a facility and ensures secure, instantaneous communication between components. Competitive wireless 433MHz bandwidth is a much more overcrowded bandwidth prone to interference. ***Upgrade to the highest quality, most cost effective wireless falls management monitoring system available today!***

- **Flexible Set-Up –** Mount the fall alarm monitor away from the patient or resident in a variety of locations to maximize safety, eliminate tripping hazards, and reduce the "nuisance monitors" that are so prevalent in healthcare facilities today. Alarm monitor may be mounted or placed outside of patient room up to 150 ft. away from the transmitter for a quieter in-room environment.
- **Reduce "Alarm Monitor Fatigue" –** Fall alarm monitor can be mounted with wall mount (included) next to and connected to a facility's existing nurse call system with fall alarm monitor sound set to mute, eliminating in-room alarm monitor sound and alerting the nurse's station when unsafe ambulation occurs (requires optional NCI-1 Nurse Call Interface Cable).
- **Wire•Less® Bi-Directional Technology** (Patent Pending) **–** When triggered, the transmitter instantly sends wireless signal to fall alarm monitor without the dangerous delay found in many other patient alarm monitors. The fall alarm monitor then sends a confirmation signal to the transmitter to stop the transmitter signal, effectively conserving battery life.
- **Multiple Applications –** In addition to Wire•Less® bed and chair sensor pads, the Wire•Less® fall alarm monitor and transmitter can be paired with all Secure® bed/chair/mattress pads, floor mats, and monitoring wheelchair seat belt. Simply insert the transmitter in our AMH-1 holder and connect to any of the aforementioned Secure® monitoring pads, mats and seat belt. Make the switch to Wire•Less® without having to purchase new sensor pads!
- **Auto Reset –** Fall alarm monitor automatically resets once the patient gets back on the bed/chair sensor pad. Alternatively, the alarm monitor can be reset by pressing the reset button located on the front of the alarm monitor. When using a floor mat sensor, the alarm monitor will continue to monitor until the reset button is pressed.
- **Secure Connection –** Fall alarm monitor and transmitter communicate every 5 minutes to confirm both remain safely synced. If the alarm monitor and transmitter become unpaired the fall alarm monitor light will flash and the alarm monitor will sound continuously indicating the system is not functioning properly.
- **Low Battery Indicators –** Both fall alarm monitor and transmitter feature low battery indicators which alert staff and caregivers when new batteries must be installed. Batteries are included with both the fall alarm monitor and transmitter.
- **Wire•Less® Sensor Pads –** Ultra-thin Wire•Less® bed & chair sensor pads are antimicrobial, latex-free, incontinent proof, and can be folded for storage.
- **Removable Wire•Less® Transmitter –** Our unique Removable Wire•Less® Transmitter can be removed and interchanged with our Wire•Less® Bed or Chair pad. Competitive wireless transmitters are sealed into the pads and cannot be removed.
- 3x AA batteries included with WAM-1 and 2x AAA with WAT-1.
- All components are covered by a one year warranty against defects and workmanship.

Wireless Nurse Call Button Sets

One Year Warranty

- Ideal for use as a call button or emergency fall alarm monitor to enable elderly & disabled to call a caregiver for help within a home or small facility
- System range of 500+ feet in open area; guaranteed to function in any average sized home or small facility under 5000 sf
- Operates on 433 MHz radio frequency band
- Easy to setup and operate
- Call button transmitter may be worn as a pendant, carried in pocket, or placed near the patient and is water-resistant
- Receiver may be wall mounted, carried in pocket, or placed near the caregiver
- Receiver features 23 melody sounds and 9 emergency sounds to choose from
- Receiver has three signal options including light signals for users with limited hearing
  - a) Sound only
  - b) Light only
  - c) Sound and light
- Receiver features adjustable volume level and low battery indicator
- 16 digital codes built in to ensure that another unit being operated close-by will not cause interference or false alarm monitors

SWCB-1
w/ One Call Button
WCBT-1

Model No. SWCB-1 – Requires 3x AAA and 1x CR-2032 batteries (not included).....**$19.99**

Wireless Slimline Pager One Call Button System - One Year Warranty

- Same great features as the SWCB-1 with the addition of a new, compact receiver design and brighter flashing alert light

Model No. SWCB-1S.....**$26.99**

Requires 3x AAA and 1x CR-2032 batteries (not included)

One Call Button WCBT-1

Additional Transmitters for above Receivers:

- Add up to 8 call buttons to your SWCB-1/1S or SWCB-2S receiver
- Great for use in multiple areas of the home or facility
- Each call button requires 1x CR2032 battery (not included)

Model No. WCBT-1 (use with SWCB-1/1S), WCBT-2R or WCBT-2B (use with SWCB-2S) **$10.99**

WIRELESS Caregiver Alert System® - One Year Warranty

- The Secure® Caregiver Alert System® is the perfect wireless patient alert solution for at-home caregivers and health care facilities
- The **Caregiver Pager Receiver w/Belt Clip (CAS-PGR-LC)** wirelessly connect with up to four monitoring components – **Sensor Pad Transmitter or Nurse Call Button w/Lanyard (CAS-SPT-LC), Fall Monitor w/Universal Nurse Call Button (CAS-FAM-LC), Motion Sensor (CAS-PIR-LC), Wall-Mounted Pull Cord Alert (CAS-TPC-LC)**
- Each monitoring component easily pairs with the Caregiver Pager Receiver and a unique alert sound (choice of 18 different melody or fall monitor sounds) can be set for each connected monitoring component
- Caregiver Pager Receiver can be set to 1.) Sound Only 2.) Sound+Vibrate 3.) Vibrate Only
- Caregiver Pager Receiver features a belt clip to attach to users belt/waist for constant patient monitoring
- Monitoring distance up to 500 ft. in an open area (walls and other interference may decrease operating distance)
- Must purchase Wireless Caregiver Pager Receiver and one or more monitoring components (up to four monitoring components can be paired with one caregiver pager receiver)
- Pager, Receiver & all monitoring components include batteries and mounting tape/hardware

Choice of 18 different melody or monitor sounds			
Distance	Door Bell Sound	Telephone Ring	Siren Monitor
3 feet	60 dB	70 dB	75 dB

WIRELESS Caregiver Alert System® Fall Monitor & Pager Alert w/Universal Nurse Call Button

One Year Warranty

Ideal for:
- Alerting Wireless Caregiver Pager (Model No. CAS-PGR-LC) and working in conjunction with other Caregiver Alert System® components

- CAS-FAM fall monitor features adjustable volume & tone, ultra-bright flashing alert light, wireless connectivity to CAS-PGR-LC Caregiver Pager Receiver, corded connectivity to the UNCB-1 universal nurse call button, and in-room fall monitor sound off
- 6V AC/DC adapter available for CAS-FAM-LC (sold separately)
- CAS-FAM-LC fall monitor connects to any Secure® bed/chair pad, floor mat sensor, monitoring seat belt, or toilet seat sensor
- Included corded UNCB-1 universal nurse call button plugs into the bottom of CAS-FAM-LC fall monitor and is placed next to the patient so they are able to signal the caregiver pager receiver whenever help is needed
- CAS-PGR-LC Wireless Caregiver Pager Receiver (sold separately) can be attached to the caregiver's waistband using the integrated belt clip, carried in pocket, or placed nearby for continuous patient monitoring
- CAS-FAM-LC fall monitor includes protective holder with hook and loop attachment strap, and pre-drilled holes for wall mounting
- To view Secure® Caregiver Alert System® Fall Monitor & Pager Alert Sets go to: http://www.SecureSafetySolutions.com/sets_CAS-FAM.htm

Standard Fall Alarm Monitor Features

= Customer Favorites

- Alarm monitors can be part of a pressure pad system or seat belt set
- One year warranty
- Tamper-resistant
- No alarm monitor delay switch for resident safety
- Batteries and screw driver included
- Durable break-resistant alarm monitor casings
- Always on for resident safety – impossible for staff to forget to activate fall alarm monitor (Meets Joint Commission guidelines)

SECURE White or Yellow Universal Fall Alarm Monitor

Ideal for:
- Detecting bed & chair egress at earliest stage
- Dementia; monitoring pads are discreet or imperceptible to residents

Model No. SUA-1.....**$21.99**

Ideal for:
- Helping staff identify residents at 'fall risk' during admissions and other high risk times:
- Floor-to-floor transfer
- Post fall
- Change of condition & or starting fall risk medication

Model No. SUA-1Y.....**$21.99**

- 80 dB fall alarm monitor can be used with a monitoring pad, seat belt or as a personal fall alarm monitor
- Easy to use press & hold for 3 seconds feature to stop fall alarm monitor from sounding
- Auto reset w/low battery indicator light
- Easy to use front test & reset button
- 9 volt battery for longer battery life
- HCPCS Code – A9280

Holder options for both models: AMH-1, AMH-1Y, AMH-3 or SPAH-1B

The 120 Decibel Monitor Can Be Silenced In Rooms & Is Ideal For:

NOISE

- Facilities requiring fall alarm monitors w/multiple tones & decibel levels
- Allows staff to distinguish between various treatment monitors
- Notifies staff specifically of bed/chair exit events, which helps to prioritize responses

SECURE 120 Fall Alarm Monitor

Ideal for: Use in rooms farthest from the nurse's station

- Flashing alert light easily identifies activated fall alarm monitor
- Choice of 120, 90 or 80 dB
- Works with our seat belts and pads
- Test and reset button
- Low battery indicator light & sound continues to alert until batteries are changed
- In-room sound on/off switch
- Optional AC power supply saves battery life
- HCPCS Code – A9280

Holder options: PH-1 & PH-1Y
Optional Nurse Call Cable (NCI-1) Only $6.99

Model No. SUA-120.....**$29.99**

Model No. Bed Pads-11 Set **$79.99**

Bacterial Contamination

Infections represent a common and serious problem in acute hospitals and nursing facilities. Of particular concern is the colonization and spread of microorganisms from surfaces/equipment not adequately cleaned, which can result in respiratory, urinary, skin and soft tissue, and gastrointestinal infections.

According to independent testing:

The Secure® Monitoring Pad covers are significantly free of antimicrobial activity for both escherichia coli and staphylococcus aureus; thereby reducing the likelihood of bacterial contamination.

For more information go to: www.securesafetysolutions.com/wp-content/uploads/2018/07/antimicrobial.pdf

Skin Sores

Skin sores occur due to application of constant pressure or friction. The risk of skin sores is great during periods of prolonged sitting or lying on stiff surfaces.

According to independent testing:

The Secure® Monitoring Pad covers are significantly free of any skin irritant; thereby reducing the chances of skin sores in susceptible patients/residents.

For more information go to: www.securesafetysolutions.com/wp-content/uploads/2018/07/nonskinsensitive.pdf

24" x 36"

WARNING! Do not roll wheelchair or carts onto mat or place heavy objects on mat. You may damage mat and void warranty. *Thank you.*

As many as 20% of falls in acute hospitals and nursing facilities occur as a result of falling out of bed. Bed safety mats are designed to:

- Provide a cushioned landing pad and reduce the likelihood of injury.

According to independent biomechanical testing:

- The Secure® Bedside Safety Mat and Secure® Beveled Edge Safety Mats can significantly reduce the risk of injury to the head, chest and pelvis vs. a fall on a hard floor surface.

SECURE Beveled Edge Safety Mat With Antimicrobial Cover*
One Year Warranty

- Helps Control Facility Infections
- Low one-inch profile & beveled edges make it easy for residents to step on and off mat & minimizes potential to trip on mat
- Beveled edge allows wheelchairs and medical equipment to easily roll over mat
- Latex-free, mildew-resistant
- Slip-resistant on both sides
- High-impact absorption EVA foam
- Meets California #117 Flame Retardant Standards

- 38" x 72" x 1"

Model No. SBEV-1 ..... **$139.99**

Reduces risk of serious head injury to .4%. See www.SecureSafetySolutions.com/product/beveled-edge-safety-mat/

SECURE Hip Protector Pad

Replacement Pad Only

Model No. SHP-PAD **$2.99**

Size Dimensions For Both Models:	
NOTE: See available sizes per product above.	
Small:	Waist (28"-31") Hips (35"-38")
Medium:	Waist (32"-35") Hips (39"-42")
Large:	Waist (36"-38") Hips (43"-45")

Hip Fractures

More than 95% of hip fractures are caused by a fall. Hip Protectors are designed to:

- Act as a cushion between the hip bone and floor surface and absorb the impact of a fall on the hip bone an/or tailbone

Proven To Be Effective

According to independent biomechanical efficacy testing:

- The Secure® Hip Protector (both hip and tailbone pads) effectively reduced the impact of force associated with a fall below the fracture threshold
- The Secure® Hip Protector, in comparison testing, performed better than other commercial brands of soft hip pads. Laboratory test results are available on our website: www.SecureSafetySolutions.com/hipprotectors.htm

SECURE Quick-Release Seat Belt - One Year Warranty

- The ONLY Seat Belt with metal connecting pin... no breakable plastic parts!

** Please call for Overnight or 2nd Day Air shipping charges if needed.*

** Oversized shipping charges will be applied to all bedside safety mat orders due to their size and weight. We make every attempt to minimize the impact of these charges to our customers by utilizing UPS or FedEx contract shipping rates and passing the savings on to the customer. Final shipping and handling charges are added to your invoice.*
